SKILLS

PERSONAL PROJECTS

Blog Platform (Next JS)

- Developed a full-stack social blogging platform with post sharing, comments, and friend connections.
- Implemented secure authentication and user management with Clerk, using Prisma ORM with Neon serverless PostgreSQL.
- Built a responsive, modern UI with Next.js and Tailwind CSS, featuring activity feeds and smooth navigation.

E-Commerce Website (MERN Stack)

- Built a full-stack e-commerce platform with responsive design, user authentication, and product management using MERN stack and Redux Toolkit.
- Developed RESTful APIs using Express.js and MongoDB for secure backend operations.
- Integrated secure user authentication and product management features.

Expense Tracker App (MEAN Stack)

- Developed a full-stack expense tracker application with JWT authentication and Angular for the frontend.
- Utilized MongoDB for storing categorized expenses and implemented secure token-based authentication.
- Designed user-friendly UI with Material UI and Tailwind CSS for an intuitive experience.

Kannur University Kalolsavam Website

- Developed a real-time result publishing platform for the university arts festival using the MERN stack (MongoDB, Express.js, React.js, Node.is).
- Implemented dynamic event updates and admin-based content management.
- Enhanced accessibility by converting the site into a Progressive Web App (PWA).

Personal Portfolio Website

- Designed and developed a personal portfolio website to showcase projects, skills, and experience using React.js and Tailwind CSS.
- Built a responsive, modern design that is mobile-friendly and optimized for fast loading.
- Deployed and hosted the site on Netlify for easy access and sharing.

WORK EXPERIENCE

MEAN Stack Intern

Inmakes Infotech

02/2025 - 05/2025

Key Contributions

- Built web applications using the MEAN stack (MongoDB, Express.js, Angular, Node.js).
- Assisted in the development of custom APIs and implemented Angular components to enhance the user interface.
- Improved backend data processing and integrated APIs to streamline data flow across the application.

MERN Stack Intern Zoople Technologies

11/2024 - 12/2024

Key Contributions

- Developed dynamic web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Collaborated with the development team to implement RESTful APIs and optimize backend performance.
- Enhanced user interfaces using React.js and improved application responsiveness and user experience.

EDUCATION

BTECH-COMPUTER SCIENCE AND ENGINEERING

St. Thomas College of Engineering and Technology

08/2020 - 05/2024

Kannur,India

CERTIFICATES

Android App Development Using Java (Teachnook)

MEAN Stack Internship (Inmakes Infotech)

MERN Stack Development Course (Zoople Technologies)

MERN Stack Internship (Zoople Technologies)

Python for Data Science (NPTEL)

Web Designing Internship Certification (Keltron Knowledge Centre)
